

N.K. PUBLIC SCHOOL RAJAWAS

Summer Holidays' Home Assignment Class-
Pre-Nursery

Dear Parents

Warm greetings!

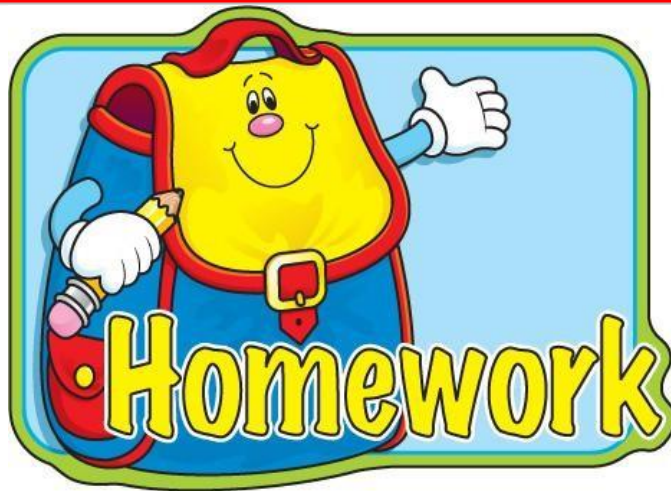

For the last 2 months we enjoyed taking care of your precious children. You might have noticed that they all loved to come to school. For the next one and a half months, you, their natural guardian will spend vacation with them. Here is a home assignment to make this period a fruitful and happy period for them.

The holidays' home work has been designed to enhance social, self-management, research and communication skills. So, go ahead spend constructive, creative and useful time with your rock star!

HAPPY HOLIDAYS!!!

HAPPY LEARNING!!!

COMMUNICATION SKILLS

- Speak clearly with your child. Model good speech.
- Read a picture book with your child daily. This will enhance vocabulary and develop a love for books at an early age.
- Sing simple songs, and say nursery rhymes. This helps your child learn the rhythm of speech.
- Place familiar objects in a box. Have your child take one out and tell you its name and how to use it. "This is my ball. I bounce it. I play with it."
- Add on to what your toddler says. When your child says, "Mama," say, "Here is Mama. Mama loves you. Where is baby? Here is baby."
- Ask questions that include a choice. "Do you want an apple or an orange?" "Do you want to wear your red shirt or your blue shirt?"

SOCIAL SKILLS

- Visit the local fruit or vegetable market with your child.
- Pretend play "Meal time". Let your toddler pass food at the table to other members and learn golden words "Please" and "Thank you".

SELF MANAGEMENT SKILLS

- Give 2-3 water containers to your little one. Let him/her transfer water from one container to the other. This will enhance your child's motor skills..
- Create a zigzag on the floor. Let your child walk/crawl and balance on it.
- Let your child hit targets with a ball.
- Help your child mould potter's clay (chikni mitti) or plain flour (atta) and be creative.

RESEARCH SKILLS

- Give some things to your child. Let him/her throw them in the water to see what floats/sinks.
- Watch the stars and clouds. If possible use a pair of binoculars.
- Let your child feed the birds and observe them eat.
- Visit the park. Collect some fallen leaves and let your child observe the differences.

Create these memories. Click pictures and paste them in a scrap book to be shared in the school after vacations.

Last but not the least, try to keep your child away from TV, mobile phones, computers and other electronic gadgets; they have their whole life for that. Look into the eyes of your little one and thank God for giving you one - wonderful gift. In a few years from now, he/she will be soaring to great heights.

Happy Holidays!
